

## QOPI® Certification Application Fees

QOPI® is an ASCO member benefit with free participation to all outpatient practices with at least one ASCO member in good standing. For QOPI® Certification, cost is determined by the number of medical oncology and hematologist clinical FTEs\* at a participating practice, plus a fee based on the number of practice locations that administer chemotherapy. In certain cases, an additional fee covering the On-Site Survey may be applied depending on number of infusion suites, distance between sites, as well as patient volume. Additional fees are assessed for applicants outside of the United States. Payment should only be sent after staff approval in the QCP Application. Each application fee covers the duration of the 3-year Certification term (if Certification is awarded).

*\*FTE = Full Time Equivalent - defined as the proportion of time a medical oncologist or hematologist provides clinical care relative to a full time schedule*
